

OCTOBER **hotsy** SPECIALS

Hotsy Quick Coupler Nozzle 4-Pack

By utilizing Hotsy's Quick Coupler Nozzles, users can adapt to all styles of pressure washing by switching between multiple degree sizes. 0° nozzles will offer the most cutting pressure for difficult jobs while 40° will offer a wide spray for general cleaning. The Hotsy 4-Pack Color-Coded Quick Coupler Nozzle Sets contain a complete set of 4 quick coupler nozzles at 0°, 15°, 25° and 40°.

Hotsy's Aluminum Brightener

Aluminum Brightener is an easy-to-apply brightener for cleaning and restoring aluminum surfaces. Aluminum Brightener makes oxidized aluminum look like new with just one application. It is a medium foamer that instantly removes welding smut. Aluminum Brightener is formulated with Ammonium Bifluoride and is much safer than detergents manufactured with Hydrofluoric Acid.

Hotsy High Pressure Gun Swivel

When pressurized, Hotsy hoses can be difficult to maneuver and keep kink-free. The Hotsy High Pressure Gun Swivel makes maneuvering a pressurized hose easier than ever. The High Pressure Gun Swivel allows for full 360° movement of the Gun Trigger while keeping the pressurized hose free from tangles and knots.

Hotsy's Yellow Fever

Yellow Fever is a powerful acidic cleaner and aluminum brightener that cleans and restores stained aluminum surfaces without dulling bright aluminum finishes. Yellow Fever is effective at removing diesel smoke, hard-water scale, grease, carbon, oils and resins. Yellow Fever can also remove mineral efflorescence from brick, masonry and concrete.
